

AMERICA WILL FALL (ENGLISH)

Rich gluttons plague this continent with immoral liberal and conservative minds alike. Christian's claiming "I follow God" while building big houses and stuffing their riches inside like a dead mummy buried with his riches in a pyramid in Egypt! Dead! Lifeless beings! Professing "I have Jesus in my heart" yet have no heart to help their neighbors in need. Always greedy for more wealth and materialisms(a god) People obsessed with investing and saving! A country plagued with consumerism on every billboard, radio, TV, phone, social media ad, corrupting every avenue of life fueled by greedy gluttons! A country plagued by politicians and economic and financial advisors saying "THE ECONOMY IS GREAT" as the collapse will fall on their own heads with rising debt, rising interest rates, rising housing prices, rising prices on foods and goods, it will get worse before a total collapse, banks greedy for more stealing from the poor, evicting

people from houses, everyone ripping off everyone, insurance companies committing injustice along with filthy health and pharmaceutical industries corrupted doctors and health industries keeping people sick and drugged up fueled by greedy malicious agricultural companies polluting the foods all for money to build their palaces! A country desensitized to the poor, widow, orphans promoting divorce and awarding the sexually immoral. A country promoting drugs and alcohol, porn, and homosexuality, a country full of people proclaiming God's name but drunk on the influence of Babylon, a country full of false religions! I myself seen but could not predict when the destruction of [#NYC](#) would be, when [#ATLANTA](#) would fall, when [#washingtondc](#) would be destroyed. Whether a few years or 100 years from now. I seen the thousands and hundreds of thousands of lives destroyed and people crying, confused, anguish, riches, houses, banks, wall street, and all the beautiful cities greed and sexual immorality flourished and people delighted in destroyed! I seen the fire, destruction, bombs, war infiltrating this country and people screaming "GOD HELP US!!" But it was too late. God lifted his hand on an immoral country with no sympathy, so God let go! For getting could not protect sin any longer for it's sins have piled up like a sticky mess to the heavens so he gave then over to the destruction of the enemies he's held back until the full number came to repentance. People will curse God, and think "God has forsaken us" who thought they were Christian. Yet they rejected the root and the seed of David, the God of Israel, and the laws of God. For they committed more of their time to lusting after the things they have bought by the works of their hands and neglected a relationship with God. They simply didn't live God with all their heart, soul, and mind. We must repent! For many will say [#America](#) will not fall, judgement will not come. Even greater judgements are coming than 9/11 and the natural disasters that's been plaguing the world. A little while longer and the sins and sinners will be destroyed.
